

Fotie Moghommahie Constant

Software Engineer | Front-End Development | JavaScript

contact@fotiecodes.com | +905 316 787 183 | [linkedin.com/in/fotie-m-constant](https://www.linkedin.com/in/fotie-m-constant) | fotiecodes.com

I am a professional Front-end Developer with 4+ years of commercial experience on internal and external company projects, currently pursuing my master in software engineering (graduating soon!). I'm passionate about creating software solutions that are scalable and accessible to all, and I am dedicated to building innovative products that empower businesses to work smarter, not harder. As an open source enthusiast, I have been contributing to various open source projects (e.g. github.com/scalar/scalar, for more details, please visit my GitHub) and I have been strongly engaged in knowledge sharing communities as well as involved in teaching activities (code mentoring, coaching, giving lectures).

I am now looking to secure my next role as a Front-End Developer, share my knowledge and learn from experts in the field.

— Key competences —

- Experience in **SaaS and Web3 industries**, developing products for **education, travel and FinTech sector**, actively involved in **open source projects**.
- Project based experience in ML(Machine learning) field, building custom **ML Models like classification models with Bert, Fine-tuning LLMs**(Large Language Models) like offline open-source Llama2, CodeLlama etc.
- Working on **internal and external projects incl. client-facing role**.
- Collaborating with back-end developers and project leaders.
- **Developing and optimizing web apps, designing and implementing user-facing features**.
- **Writing tests** to ensure the site's front-end accounts for all possible uses.
- Ensuring the **maintenance** and growth of a site's front-end.
- Experience with **responsive and adaptive web design**.
- Familiar with **UI/UX design principles**, ensuring the technical feasibility of UI/UX designs.
- Experience in **SCRUM/Agile** working environment.
- Excellent verbal communication and interpersonal skills, **coaching and mentoring skills**.
- **Superb troubleshooting and debugging skills**, strong problem-solving skills.
- An ability to multi-task on multiple projects and tasks at the same time.
- A strong sense of curiosity, ability to learn fast, and a love for learning in general.

— IT Technologies —

HTML5/CSS3

JavaScript(ES6)/Typescript

jQuery

Shadcn UI

Tailwindcss

Bootstrap

PHP

SQL

.NET (basic)

OOP

RESTful APIs

Python, Tensorflow, NumPy

Git version control system: Github

Frameworks: Vue.js, Nuxt.js, etc.

Graphic design: Figma, Adobe XD, sketch, Photoshop etc.

— Experience in Software Development —

BTS Global LCC, remote

01.2022 – 09.2023

Software Engineering Consultant

- Providing advice to the clients on software products and technologies selection, building web apps and software development methodologies.
- Supporting clients in the optimization of their existing software systems, troubleshooting.
- **Responsible for the entire front end development process coordination** (agreeing on clients' expectations, inverting specification into frontend functions, delegating tasks to the development team, accountable for the progress, presenting prototypes to clients, etc.).

Software Engineer Intern

- **Developing web** applications (coding, programming) for education sector.
- Debugging and testing code.
- Documenting and testing new software applications.
- Researching, investigating and fixing a wide range of technical issues.
- Collaborating with senior leaders.
- **Core technologies:** JavaScript, Vue.js, HTML, PHP, OOP, AJAX, JSON, Figma.

— Education —

01.2023 – to date Masters in **Software Engineering**, Atilim University, Dep. Software Engineering

2019 – 2020 Bachelor's in **Front-End Development**, OpenClassrooms, *part-time degree with Europe's largest online-only higher education institution, one of the 53 globally selected candidates by Meta, formerly known as FACEBOOK*

2017 – 2020 Bachelor's in **Computer Software Engineering**, African Institute of Computer Sciences, *end of year project: Jobber, an online job portal, designed and built for Cameroonians*

— Languages —

English – native

French – fluent

Chinese – HSK3

Turkish – A2

— Experience in Teaching, Open Source Communities —

09.2021 – to date **Front-end Developer (Mentor)**, Codementor.io
Link:codementor.io/@fotiemconstant

01.2021 – to date **Code Mentor**, Coding Coach

12.2021 – to date **Front End Mentor**, MentorColor

06.2021 – 08.2021 **JavaScript Mentor**, PremierDev Summer Bootcamp

09.2020 – 09.2022 **Moderator**, Local Meta Developer Circles in Yaounde

09.2020 – 09.2022 **Student Community Ambassador**, OpenClassrooms, Yaounde - OSCA

03.2021 – 05.2022 **Open Source Community Africa Chapter Lead**, Open Source Community

Moonblocks LLC, remote

02.2023 – 08.2023

Frontend Engineer

- Working on projects for **SaaS and Web3 industries**.
- **Designing and implementing web apps** (e.g. community engagement platform - gamification): user-facing features, building internal reusable code and libraries for future use.
- **Optimizing applications** for maximum speed and scalability.
- Collaborating with back-end developers to integrate front-end components with server-side logic, ensuring cross-browser compatibility and responsive design, and implementing security and data protection measures.
- Communicating with internal marketing team to understand the client's needs.
- Documentation preparation and maintenance.
- **Participating in code reviews**, debugging and resolving technical issues.
- **Core technologies:** JavaScript, HTML, CSS, Vue.js, shadcn ui, OOP.

GOHZE, Cameroon

08.2021 – 01.2022

Frontend Developer

- **Working on internal and external projects** (applications for school management, streaming platforms etc).
- Integrating mockup designs.
- Maintaining and improving company website.
- Integrating web APIs on the frontend with Axios.
- Connecting and directing collaborating with the company's clients regarding their expectations, agreeing functionalities etc.
- Collaborating internally in Agile/SCRUM.
- **Core technologies:** Javascript, HTML/CSS, Vuejs, Nuxtjs, Tailwind, some .NET.

N-Tec Labs, Cameroon

11.2020 – 07.2021

Frontend Developer

- **Engineering and building the front-end of over 4 web apps at N-Tec Labs of which 2 of them are internal applications (e-commerce, FinTech industries).**
- **Increasing N-Tec's customers' user experience** through clean UI and good design practices of their web apps.
- Determining and implementing good structure and design of web pages.
- Developing features to enhance the user experience.
- **Optimizing the web design** for smartphones.
- Building reusable code for future use.
- Optimizing web pages for maximum speed and scalability.
- Maintaining N-Tec's brand consistency throughout design.
- **Core technologies:** Javascript, HTML/CSS, Vuejs, Vuex, Vuetify, PHP, Git.

WinMoney, Cameroon

08.2020 – 09.2020

Web Developer Intern

- Building and maintained web interfaces for clients projects.

Scolaryx, Cameroon

06.2019 – 09.2019

Software Engineer Intern

- **Developed new user-facing features for e-learning platforms** (reusable code, technical feasibility of UI/UX designs, app's optimization).
